**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Before SONIC, I had NETZERO (DSL service) as internet provider. As my needs for greater broadband grew, and after NETZERO talks for an upgrade were unfruitful, I found my self on the look for another internet provider. That is when SONIC (DSL service) came across. After a year and few months of DSL, SONIC implemented FIBER TO THE HOME at my address with no extra cost. No other company were able to provide services at my address for such cost and quality (Not even AT&T, which is strange given that copper lines are own by them, and no FIBER TO THE HOME). SONIC also provides me with land line phone via VOIP with better quality/cost than my last provider AT&T.

I do not want an increase in cost of internet and telephone services. Enough with the high living cost in San Francisco to add another one.

I would not be able to enjoy Such quality and cost without the 1996 Telecommunication Act and the FCC responsibility to regulate for the people and not for the companies. That is why I ask the FCC to stop AT&T and USTelecom from making their kill them before they grow tactic a reality, and to exercise responsibility in favor of the many other people that is still awaiting quality and cost, and to maintain that cost and quality for those that are already enjoying such excellence in service. Please keep the 1996 Telecommunication Act seed alive for SONIC to grow and build a better internet for America.
